

Dear Readers,

As the year ends, we are proud to reflect our year's last edition with School assemblies, Celebrations & events, Field trips, Monthly competitions, Insight workshop & the updates about Cambridge. Happy Reading!

Our School assembly begins with a morning prayer, thought for the day, followed by the speeches, skits, or performances on topics ranging from current affairs to develop confidence and awareness. Special assemblies are often held to mark important days, such as opposite day, care your environment, fairy tales, adding meaningful variety to the routine.

School Celebrations & Events: We had our Founder's day, Pongal celebration, Republic day, Holi, Graduation day, Sleepover & Farewell.

These events provide students with the opportunities to showcase their talents, develop leadership and organizational skills, and build confidence.

Field trips: The learners are been taken to IIT, Zoo & museums for hands-on experiences, and real-world connections that deepen students' understanding of academic concepts

Monthly competitions: Conducted competitions such as Lego art, Clay modeling, Logo designing, painting, Tangram art and stamina check.

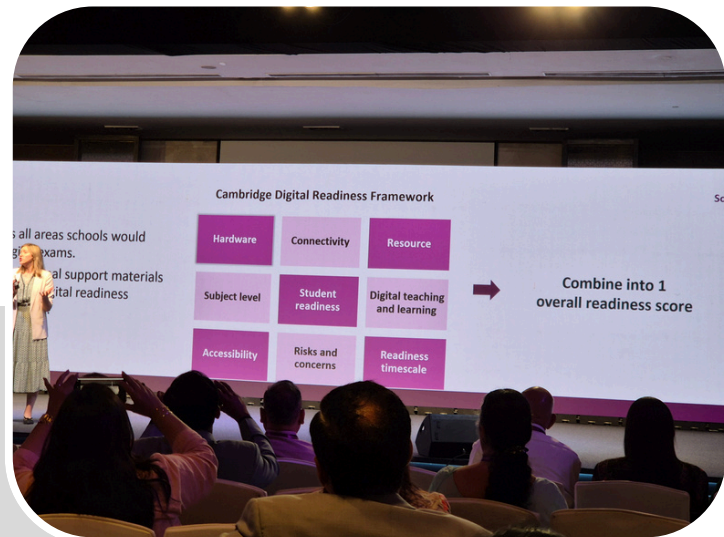

Students workshop: An interactive workshop designed to deepen awareness, enhance critical thinking, and spark creative problem-solving among students.

Cambridge South Asian Conference: Over 400 educators, school leaders and thought-leaders from India, Nepal, Sri Lanka, Bhutan, Bangladesh and the Maldives gathered to explore innovations in teaching and assessment and to reinforce Cambridge's commitment to supporting the region's rapidly evolving education landscape.

School's football achievement: Our U7 & U9 team secured second place in Football league .

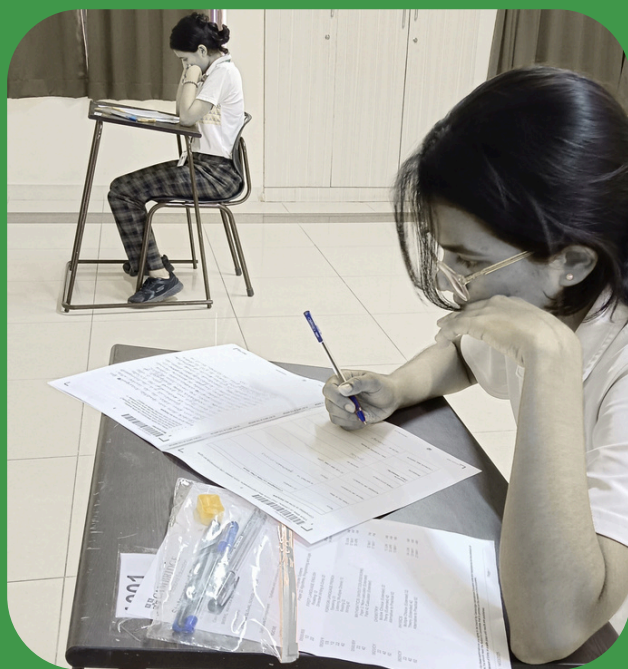

Day of Discovery: Our Exciting School Excursion!
There's something truly special about stepping outside the classroom and learning through experience – and that's exactly what our recent school excursion offered!

Primary & Secondary checkpoint:

IGCSE Exam

Our very first batch appeared for the IGCSE Exam

Psychometric Assessment:

A tool for student growth:

Psychometric assessment was taken for GVIII to identify the areas of strength and to guide the career based on the skillset.

Topic: Black pen drawing with white highlights

Creative corner:

Suresh, a 6-year-old, favored his monkey toy, Tom, over his cat, Mike, often mistreating the latter. One magical night, an angel's intervention transformed Tom and Mike into humans. Driven by hunger, they ventured into a jungle, where they befriended animals before discovering a center for autistic children.

At the "Centre for God's children", the talking Tom and Mike surprised the receptionist, who became their ally. They learned that the center provided care for the children, and soon, Tom and Mike connected deeply with them, offering comfort and support. However, they observed disturbing bruises on the children and witnessed the harsh punishment inflicted by 2 caretakers for their refusal to eat. Tom and Mike were determined to help.

During a scheduled inspection by government officials, the abusive deceptively portrayed themselves as kind and caring. Witnessing this charade, Tom and Mike hatched a plan. They secretly followed the officials after their visit and courageously revealed the truth about the maltreatment that had witnessed. The officials promptly returned to the center, confronted the accused caretakers, who eventually confessed their wrongdoing.

Consequently, the cruel individuals were immediately suspended from their duties and subsequently arrested for their abusive actions. Tom and Mike's bravery and honesty were widely recognized and appreciated. They became popular figures in the town, celebrated for their kindness and their courageous act of standing up for the vulnerable children. Their unexpected transformation had let them to become heroes, bringing justice and compassion to those in need.

Sun is the best

Sun is the best

Sun gives nature, the food

Nature gets food only because of sun

Sun is the best, I love it

It gives happiness

Without sun , we can't see anymore

Without sun , we can't see the world

Sun is the best

Sun gives us light

Sun gives us brightness

Sun loves us.

Sun, Love having them in the beach

Sun give vitamins and makes us happy

We love sun (2)
